

Money Smart for Youth

577
students
have
participated
in the
program.

Money Smart* for Youth is a financial education program that Guaranty Bank is proud to offer the youth in our communities. Through partnership with schools, after school programs and a workforce development program, teens and young adults are provided tools and resources to successfully plan and save for their future.

Guaranty Bank has participated in this program since 2015 and partnered with ten schools within our communities. The employee volunteers from Guaranty Bank delight in seeing the students' eagerness to learn how to build a solid financial base for their lives. Guaranty Bank is committed to the communities we serve and this program is another way that we are able to give back to our communities and our youth.

* Money Smart is an FDIC curriculum.
